

STANBRIDGE LOWER SCHOOL

Take Away Task – Spring 09

Yrs R,1,2,3,4

Your Task is.....

To make a simple maths table top board game appropriate for your age to play.

- Size: No bigger than 40cms by 40cms.
- It must focus on adding and subtraction.
- You will need to think about rules.
- You could give your game a theme eg trip around the world, with a track in the middle where you have to answer maths questions to move on or back. Add pictures showing different countries, miss a go, go back 3 spaces and answer a maths question etc, or design something completely different. Be creative and have fun!

Please complete by.....

Please bring all completed games to school by Friday 27th February (after half term).

Take Away Tasks are exciting and uplifting homework experience that will enable you as parents and the children to work together on tasks. These tasks will be designed to deepen children's learning experiences, encourage them to do research at home, whilst also encouraging family learning. As parents you can get involved with these tasks as much or as little as you like, but from past experiences parents can't help but get involved, as tasks not only inspire the children, but inspire you too.

Once the tasks are completed the children will bring them into school to present to their class.
